PROFILE

I am a dynamic and innovative student working in the Systems Neuroscience Lab at UCSD, specializing in creating immersive virtual environments. I have led social media design in multiple organizations. Proficient in Creative Cloud and FIGMA, adept at team management, and successful in raising \$1250 for children's development. Skilled in blending technical expertise with creative vision to achieve outstanding results.

WORK EXPERIENCE

11/2024 to Present

Systems Neuroscience Lab at UCSD | San Diego, CA

Undergraduate Researcher

- Creating virtual environments compatible with Unity and Unreal Engine to help understand cognition of navigation.
